'Copy' means a copy certified by a person authorized to do such certification in that institution. A relevant authorization to certify copies should be provided to the report as a supporting document.	?

Important: FLC has a right to suspend expenditure which were deemed ineligible or irregular in the given reporting period and to finalize its work and certify only those expenditure which were not questioned. In such cases the expenditure which is deemed ineligible or irregular in given reporting period but the FLC did not finalize its work shall be described separately and the final decision regarding such expenditure must be done during the verification of the following reporting period (expenditure can be shifted only to the next reporting period).

Only eligible expenditure should be included into CPR.

If there is suspended expenditure - it shouldn't be included in the CPR of the relevant reporting period (reflected only in PR and FLC declaration of validation of the beneficiary expenditure).

In the next reporting period: if after additional clarifications/corrections previously suspended expenditure appears to be eligible, it should be included in the CPR (but not in the PR). It should appear in the part 1.6.4 and the detailed description regarding the case should be provided by the FLC in the Declaration of validation of the beneficiary expenditure.
