Interreg VI-A Lithuania-Poland cooperation Programme

1st Call for Proposals for Regular Projects

This document outlines the terms and conditions that apply specifically to the first call for proposals launched by the Interreg VI-A Lithuania-Poland cooperation Programme. More general information on rules and requirements to be observed when applying for funding can be found in the Programme Manual, which is available at the [Programme website](#).

General Information

On 26 September 2022 the European Commission has adopted the decision No. C(2022) 6938 for approval of the cooperation programme “(Interreg VI-A) Lithuania-Poland” for support from the ERDF under the European territorial cooperation goal (Interreg) in Lithuania and Poland for the period from 1 January 2021 to 31 December 2027.

The overall objective of the Programme is improving wellbeing of cross-border communities through cross-border cooperation and sustainable use of cultural and natural heritage of the Lithuania and Poland cross-border area. While preparing project applications, this objective should be considered as guiding principle for generating project ideas and developing activities. All projects have to comply with EU and national legal frameworks and basic principles. Cross-border relevance has to be building stone of every project and cooperation, project outputs and results should be clearly linked to Programme objectives. For this reason, projects should carefully consider this document and guidelines provided in Programme documents. Programme intends to select high quality projects which contribute to tackling the cross-border challenges identified in the Programme area.
